US-Canada Trade Collapse To Drag On Sentiment

Research Team
research@msec.com.my
(603) 2201 2100

Market Review

MY: The local bourse edged marginally lower, dampened by rising US Treasury yields after the bond buyback-driven rally in the US faded; NESTLE and TM weighed on the index. Sector-wise, Plantation (+1.20%) outperformed, led by IOICORP and SOP, while Technology (-1.34%) was the weakest performer.

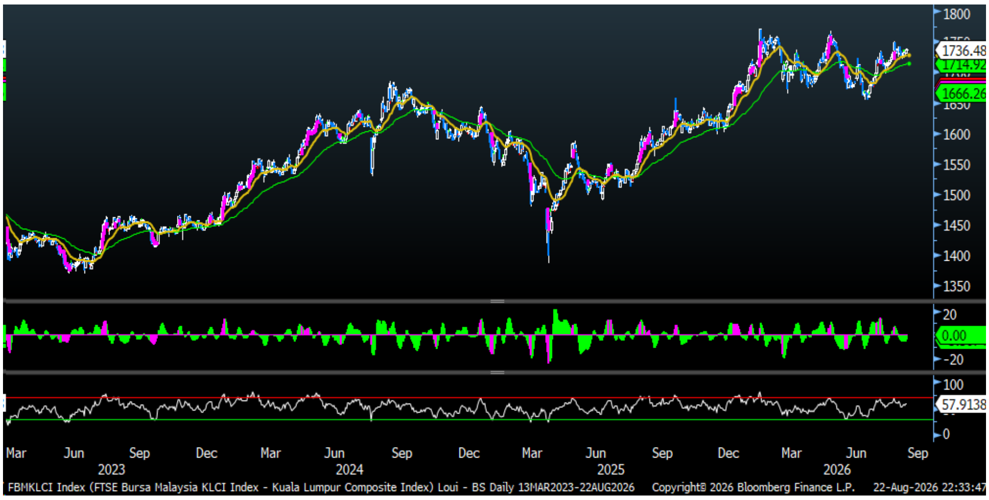
US: Wall Street closed higher on Friday as a surge in materials stocks, a rally in crypto equities, and strong U.S. business activity data offset a resuming bond market sell-off. The Dow, S&P 500 and Nasdaq advanced by 1.0%, 0.4% and 0.4% respectively, while Brent crude reached USD93.9 per barrel amid ongoing Middle East tensions.

The Day Ahead

US: With Canada vowing “dollar-for-dollar” retaliatory tariffs on the US after the collapse of US–Canada trade talks, coupled with ongoing Middle East tensions, we expect that the rebound on Wall Street will not be sustainable in the near term. Stock-wise, we like Interactive Brokers (IBKR), underpinned by (i) its introduction of new products and market expansion, (ii) its integration of next-generation AI and autonomous agentic trading infrastructure, and (iii) its recent 2QFY26 earnings beat. Besides, buying interest emerged in cryptocurrency-related stocks like Robinhood (HOOD) and Coinbase (COIN) following the sharp rally in Bitcoin. Lastly, investors will also be focusing on Nvidia’s (NVDA) Q2 earnings this Wednesday, alongside software leaders Intuit (INTU), Salesforce (CRM), and CrowdStrike (CRWD).

MY: With the local bourse entering a shortened trading week alongside the collapse of US–Canada trade talks, we expect the FBM KLCI to trade on a mixed note. Stock-wise, SCGBHD is pending a further breakout while FOODIE is also seeing an improvement in its share price performance; the former secured a RM403.6m supplementary contract extension from TNB, bringing its total order book to RM1.3bn, while the latter saw its 9MFY26 results already surpass its FY25 full-year results. Lastly, we continue to favour EIPOWER, supported by (i) accelerated revenue conversion from mission-critical DC power delivery, (ii) regional expansion into Thailand, and (iii) a RM219.8m order book providing earnings visibility through 2027.

FBMKLCI Technical Outlook



Bloomberg

The FBM KLCI traded marginally lower, with underlying indicators reflecting mixed signals at the current juncture, as the MACD histogram is hovering below the zero level while the RSI is holding above 50. Overhead resistance is located around 1,751–1,756, while support is anchored at 1,716–1,721.

Company Briefs

Tan Sri Ismail Bakar is retiring as chairman of **Bank Islam Malaysia Bhd** (BIMB) after six years at the helm of the company. His resignation will take effect on Aug 22. He was appointed as a chairman of the Islamic lender in August 2020. (The Edge)

Chin Keat Chyuan is stepping down as president and managing director of **KPJ Healthcare Bhd** (KPJ) on Sept 1, ending a three-year tenure at the helm of Malaysia's largest private hospital operator. Chin is resigning to pursue other interests. Professor Datuk Dr Hanafiah Harunarashid, the group's chief medical director, will serve as officer-in-charge pending the appointment of a new president and managing director. (The Edge)

Khee San Bhd (KHEESAN) said six bank accounts belonging to its unit Khee San Food Industries Sdn Bhd have been frozen following an investigation under Malaysia's anti-money laundering law. The company did not identify the bank. The accounts are actively used to support the group's day-to-day operations, and the freeze is expected to cause some disruption to the group's operations. (The Edge)

Bintulu Port Holdings Bhd (BIPORT) has entered into a heads of agreement with the Sarawak government to establish an interim operating framework as the port transitions from federal to state control. The agreement between its wholly-owned Bintulu Port Sdn Bhd, the Sarawak government and Bintulu Port Authority — which took effect on July 27 — is to ensure that port operations continue without interruption while the parties finalise a long-term Port Operation Concession Agreement. (The Edge)

Sunway Construction Group Bhd (SUNCON) has secured RM1.04bn worth of orders to provide mechanical, electrical and plumbing fit-out works for two projects from a multinational technology company based in the US. The works are scheduled to commence immediately and be completed by March 2028. The identity of the client was not disclosed, nor was the exact location of the projects. (The Edge)

FBG Holdings Bhd (FBG) is seeking to withdraw from the joint development of the Medi-City project in Batu Kawan, Penang. The group has written to the Penang Development Corp to cease proceeding with the collaboration under a master purchase and development agreement it had entered. The project is a proposed comprehensive development incorporating healthcare and wellness into residential, retail and commercial components. (The Edge)

AEON Co (M) Bhd (KL) (AEON) reported a 15.7% increase in its second-quarter net profit, thanks to tighter cost controls and improved operational efficiency. Net profit rose to RM14.2m despite revenue staying largely unchanged at RM995.33m. No dividend was declared with the quarterly results. (The Edge)

Allianz Malaysia Bhd (ALLIANZ) recorded a modest increase in second-quarter net profit as higher insurance revenue from both its general and life insurance businesses supported earnings. Net profit rose 2.2% to RM218.66m, while its insurance revenue rose 7.2% to RM1.63bn. No dividend was declared for the quarter. (The Edge)

Malaysia Marine and Heavy Engineering Holdings Bhd (MHB) logged its best quarterly profit in two years thanks to strong project activity in its heavy engineering segment. Net profit for 2QFY2026 jumped nearly six times to RM60.59m as revenue more than doubled to RM986.73m. MHB did not declare any dividend for the quarter. (The Edge)

Velesto Energy Bhd (VELESTO) reported that its second-quarter earnings were nearly wiped out by expenses amid lower income, though the firm expects better times ahead. Net profit was just RM531,000. Only two-thirds of its rigs were drilling while average daily charter rates fell 16%, dragging revenue down 23% to RM154.03m. Velesto declared an interim dividend per share of 0.25 sen, bringing the total announced so far this year to one sen per share. (The Edge)

Aluminium extrusion manufacturer **PA Resources Bhd** (PA) closed its financial year with a strong fourth quarter, as net profit tripled on the back of record quarterly revenue, fuelled by higher sales orders. Net profit for 4QFY2026 surged to RM18m while revenue rose 25.2% to RM204.83m. The group declared an interim dividend of 0.5 sen per share, payable on Oct 30. (The Edge)

Far East Holdings Bhd (FAREAST) saw its second-quarter net profit drop 35.4%, as lower contributions from associates, together with lower harvest and production volumes, outweighed higher crude palm oil and palm kernel prices. Its net profit came to RM32.29m, following a 33.5% drop in its share of profit from associates. Revenue declined 5.3% to RM229.57m mainly due to a 26% drop in fresh fruit bunch (FFB) production to 66,430 tonnes, while FFB processed by its mills fell 27% to 168,520 tonnes. An interim dividend of six sen per share was declared with the quarterly results, to be paid on Sept 21. (The Edge)

NationGate Holdings Bhd's (NATGATE) second-quarter net profit plunged 79% as earnings normalised from a high base a year earlier, following significantly lower contributions from its data computing business. The electronics manufacturing services provider nevertheless maintained its interim dividend at 0.25 sen per share, payable on Sept 22. Net profit for 2QFY2026 fell to RM10.90m, mainly due to a reduction in sales from the data computing segment and less favourable foreign-exchange movements. Revenue, meanwhile, declined 32% to RM1.77bn from RM2.60bn. (The Edge)

Cuckoo International (MAL) Bhd (CKI) reported a marginal increase in second-quarter net profit amid a fall in revenue, as softer consumer demand led to lower units sold. Net profit for the quarter rose 3.19% to RM28.22m, while revenue declined 19.81% to RM245.93m. No dividend was declared during the quarter. (The Edge)

Rising memory chip costs are pushing up the price of servers that use **Nvidia Corp**'s (NVDA) artificial intelligence chips, with some of the chipmaker's biggest customers facing increases of more than 15%, Bloomberg News reported on Saturday. The higher prices are expected to apply to systems shipped early next year, including those equipped with Nvidia's flagship Vera Rubin and Grace Blackwell chips, the report said. (Investing.com)

Walmart Inc. (WMT) said Friday it will roll out contactless payment options, including Apple Pay, across all U.S. stores by the end of 2026. The world's largest retailer will begin adding Tap to Pay at select Walmart stores and Sam's Club locations on Aug. 24. The payment options will be accepted on Walmart's websites and apps.
