Softer Wall Street But Nvidia Remains Favoured

Market Review

MY: Despite Wall Street's positive overnight performance, the local bourse bucked the trend and closed lower, dragged down by negative sentiment following the limit-down in ZETRIX (-30.0 sen). Sector wise, all sectors ended lower, particularly Technology (-3.65%) and Utilities (-2.41%).

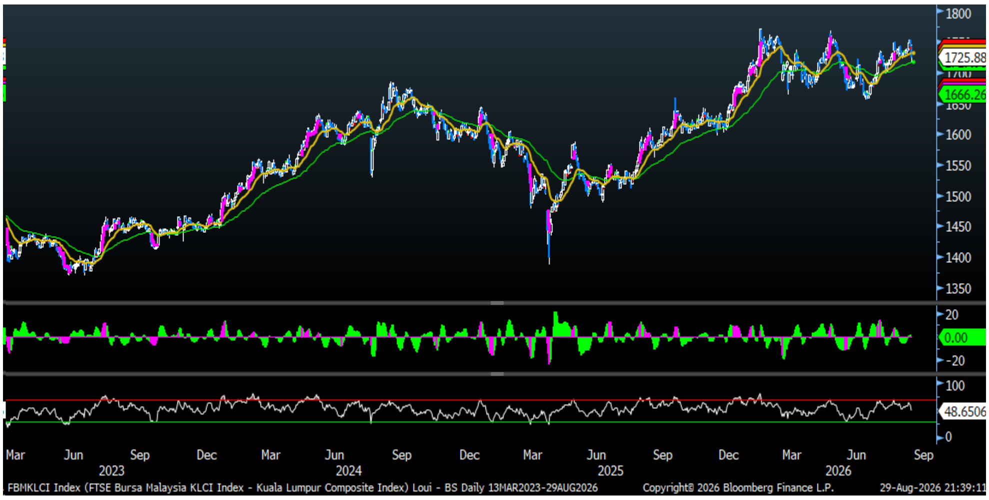
US: Wall Street closed lower on Monday as direct U.S.-Iran military strikes drove a sharp surge in oil prices toward USD90.4 per barrel, while hawkish Jackson Hole comments from Fed Chair Kevin Warsh spurred a sell-off in U.S. Treasuries. The Dow, S&P 500 and Nasdaq retreated by 0.7%, 0.3% and 0.1% respectively.

The Day Ahead

US: Following renewed US military strikes on Iran and Fed Chair Kevin Warsh's hawkish Jackson Hole debut, we expect Wall Street to trade on a softer note in the near term. Markets are now pricing in a 59.9% chance of a 25bps rate hike by September, compared with 39.9% a week ago. Stock-wise, we continue to favour Nvidia following its strong Q2 results, which also marked its 15th consecutive quarter of earnings beats. Nvidia has guided Q3 revenue to USD108bn, making it the first quarter projected to surpass the USD100bn milestone (excluding any China DC revenue). Growth is set to be led by the ramp-up of the next-gen Vera Rubin platform, with Amazon AWS announcing plans to procure 2m GPUs alongside new Vera CPUs.

MY: Tracking Wall Street's negative overnight performance, we expect the FBM KLCI to kickstart the shortened trading week on a weaker footing. Stock-wise, we favour automation solutions provider GREATEC, underpinned by its RM1.8bn order book (representing 2.3x FY25 revenue) and multi-sector tailwinds across DC, nuclear energy, solar, and life sciences. Meanwhile, ongoing haze and forest fires in Kalimantan, Indonesia, should also drive a surge in bottled drinking water consumption, benefiting SPRITZER and LWSABAH. Lastly, riding on the country's DC boom and NETR execution, we continue to favour cable manufacturer SCGBHD.

FBMKLCI Technical Outlook



Bloomberg

While the FBM KLCI experienced a pullback, the technical indicators are still showing mixed signals, with the MACD histogram expanded toward its positive territory, while the RSI is trading below 50. Key resistance lies within 1,740–1,745, with support expected around 1,705–1,710.

Company Briefs

Yinson Holdings Bhd's (YINSON) major shareholder, Yinson Legacy Sdn Bhd, confirmed that it is in preliminary talks over a potential privatisation of the oil and gas firm. The investment vehicle linked to Yinson executive chairman Lim Han Weng and his family said an indicative offer price of RM2.35 per share is currently being considered should the proposal proceed. "We are currently engaged in preliminary and exploratory discussions" with **MISC Bhd** (MISC), affiliates of Yinson Legacy and the Employees Provident Fund, the company said. (The Edge)

Gamuda Bhd (GAMUDA) has secured contracts worth a combined RM3.57bn to build two hyperscale data centres in Port Dickson, Negeri Sembilan. The first contract is worth RM1.79bn, while the second is valued at RM1.78bn. Both projects are expected to commence in the fourth quarter of 2026. The first data centre is scheduled for completion in the third quarter of 2028, while the second is expected to be completed in the fourth quarter of 2028. (The Edge)

WCT Holdings Bhd (WCT) has secured a RM600.9m contract to build a 41-storey office tower at the Tun Razak Exchange. The contract was awarded to its unit, WCT Bhd, by Minister of Finance Inc-owned Pelangi Pasifik Sdn Bhd. WCT added that construction is scheduled to start on Dec 1. (The Edge)

Zetrix AI Bhd (ZETRIX) has clarified that it has no links with former human resources minister Datuk Seri M Saravanan, who has been charged with corruption in relation to the approval of foreign worker quotas for a local company in 2022. The electronic government services provider was issued an unusual market activity (UMA) query from the bourse regulator after its share price saw a massive 50% plunge amid trading on Friday. The company said it understood that unfounded rumours or speculation linking it to the three graft charges brought against Saravanan may have contributed to the trading activity. (The Edge)

HeiTech Padu Bhd, (HTPADU), whose share price tumbled to a 30-month low on Friday, said it is unaware of any reason behind the sharp decline after the stock exchange regulator issued an UMA query. (The Edge)

CIMB Group Holdings Bhd's (CIMB) net profit for 2QFY2026 edged up 1.2% to RM1.94bn from RM1.89bn a year earlier, supported by broad-based performance across all businesses. Quarterly revenue slipped to RM5.56bn from RM5.6bn. It declared a first interim dividend of 19.65 sen per share. (The Edge)

CIMB's Thai unit, CIMB Thai Bank, will be delisted from the Stock Exchange of Thailand on Sept 12, more than two and a half years after a regulatory process triggered by stricter free-float requirements. The delisting will have no material impact on CIMB Thai's customers, operations, financial strength or regulatory standing. CIMB Thai will remain a core subsidiary and continue its banking operations as usual. CIMB Thai posted a more than fivefold increase in net profit for 2QFY2026. (The Edge)

RHB Bank Bhd's (RHBBANK) net profit for 2QFY2026 edged up to RM807.15m compared to RM803.50m a year earlier, as higher net interest income and lower provisions offset a decline in non-interest income. Year-on-year, net fund-based income was up 6% to RM1.58bn while non-fund based income declined 13% to RM580m. An interim dividend of 15 sen per share was declared. (The Edge)

Axiata Group Bhd's (AXIATA) net profit from continuing operations rose in 2QFY2026 from a year earlier mainly on the absence of goodwill impairment. Net profit stood at RM42.5m. Quarterly revenue slipped 3.2% to RM2.87bn as foreign subsidiaries' currencies depreciated against the ringgit. (The Edge)

IOI Corporation Bhd's (IOICORP) net profit for the fourth quarter ended June 30, 2026 (4QFY2026) rose 17% to RM501m from RM437m, driven by improved performance in the resource-based manufacturing segment. Revenue was up 3% to RM3.041bn from RM2.96bn a year earlier due to higher sales volume across key specialty product lines and improved global product demand. The group declared a second interim dividend of seven sen per share payable on Sept 25. For the full year, net profit rose 11% y-o-y to RM1.68bn, while revenue rose 4% to RM11.78bn. (The Edge)

Hengyuan Refining Company Bhd (HENGYUAN) resumed dividend payments after a four-year hiatus with a 10 sen interim dividend, following a 2QFY2026 net profit of RM600.54m — its highest since 2022 and a fourth consecutive profitable quarter. This turnaround from a RM183.24m net loss a year earlier was driven by lower finance costs, increased other income and RM38.87m in operating gains. Revenue jumped 55.69% to RM5.44bn from RM3.49bn. (The Edge)

Sarawak Oil Palms Bhd's (SOP) 2QFY2026 net profit jumped 67.2% to RM153.69m from RM91.92m a year earlier, thanks to higher sales volumes and realised prices of crude palm oil and palm kernel. Revenue increased 11.6% to RM1.46bn from RM1.31bn a year ago. The company declared a dividend of five sen per share, payable on Oct 16. (The Edge)

Hibiscus Petroleum Bhd's (HIBISCS) 4QFY2026 net profit more than doubled, rising 155.6% to RM190.72m, driven by higher realised oil and gas prices under its PM3 CAA PSC and strong operating performance in Malaysia. Revenue increased 34.5% to RM846.46m. The company declared a fourth interim dividend of two sen per share payable Oct 22, and recommended a final dividend of one sen. (The Edge)

Berjaya Corp Bhd (BJCORP) narrowed its 2QFY2026 net loss to RM109.02m from RM207.2m a year earlier, supported by stronger operating performance across its business segments and lower net investment-related expenses. Quarterly revenue fell 3.6% to RM2.28bn from RM2.37bn, due to lower contributions from the retail segment. Revenue was affected by unfavourable foreign exchange translation effects when the results were translated into ringgit. No dividend was declared for 2QFY2026. (The Edge)

Eversendai Corp Bhd (SENDAI) posted a net loss of RM10.63m for the second quarter of 2026 and expects to settle claims over its cancelled structural steel contract for the Trojena Ski Village by 1Q or 2Q2027. The group swung into a net loss for 2QFY2026 compared with a net profit of RM12.16m in the same quarter a year earlier. In response to the termination of the Ski Village contract and ongoing headwinds in West Asia, the group has taken immediate and decisive measures to optimise its operating cost structure and strengthen overall operational efficiency. (The Edge)

Farm Fresh Bhd's (FFB) net profit for the first quarter ended June 30, 2026 (1QFY2027) declined 18% to RM26.82m from a year earlier, due to higher cost of fuel and plastic bottles. Revenue, however, rose 18% to a new record of RM306.37m. No dividend was announced. Meanwhile, Farm Fresh also said it will acquire an additional 20% stake in The Inside Scoop Sdn Bhd for RM50.8m, which will raise its stake in the ice cream chain to 85% from 65%. (The Edge)

SK Hynix (SKHY) is considering outsourcing production of base dies for its next-generation HBM4E memory to Intel Foundry, seeking to diversify a supply chain that is currently reliant on **Taiwan Semiconductor Manufacturing Co** (TSMC), South Korea's Herald Economy reported Monday, citing industry sources. The report said SK Hynix could work with both TSMC and Intel on base-die production starting as early as HBM4E, which is the company's seventh-generation HBM product. The move would give SK Hynix additional options on manufacturing capacity and costs

while reducing its dependence on a single foundry, according to the report. (Investing.com)

OpenAI said that it plans to stop providing AI models to Cursor, the coding-tool company now owned by Elon Musk's **SpaceX** (SPCX), marking a further escalation in the bitter rivalry between OpenAI CEO Sam Altman and Musk. Musk and Altman have been at odds for years, a feud that culminated earlier this year in a trial over Musk's USD150bn lawsuit against OpenAI. (Investing.com)
